DAVID ICKE

Banned From EUROPE

Legendary British speaker, researcher and author David Icke, a tireless fighter for the Human family and its Right to Freedom, was invited at the end of October to be the featured speaker at the peace rally 'Samen voor Netherlands' in Amsterdam on November 6, 2022.

What happened next ...

The Jewish organization CIDI (Centre Information and Documentation Israel) objected to the arrival of David Icke and requested the mayor of Amsterdam to prevent him from speaking during this demonstration. The mayor of Amsterdam subsequently requested the Immigration and Naturalization Service (IND) to investigate whether it would be possible to prohibit David Icke from entering Dutch territory. After appeals from a number of Members of Parliament, the State Secretary for Justice and Security decides on November 4, 2022, to deny David Icke access to the Netherlands and 25 other European nations (Schengen countries) for a period of two years.

Statements by the government, politicians, the CIDI and the media can be regarded as libel and slander towards David Icke. They call him a Jew hater and Holocaust denier. David Icke has been designated a Level 3 terrorist by the Netherlands government.

The Icke family received a letter from the Dutch State Secretary for Justice and Security, justifying their ban and alert to the SIS (Schengen Information System) by saying:

“The British David Icke has been internationally known for years as a propagator of conspiracy theories. ... By granting you access to the Netherlands, you are given a platform to publicize your theories in person, which means that it can lead to a disturbance of public order or the commission of violence in the Netherlands, even if you do not explicitly call for this yourself.”

A dangerous precedent has been set as David Icke gets banned from 26 countries in the European Union as well as other countries, including the US and Australia, that follow the guidelines of the Schengen area!

The peace rally was cancelled on November 5, 2022, by the organisers in support of David Icke.

A team of lawyers has started to challenge the Dutch government’s ban.

The first court hearing was held on December 9, 2022. David Icke was not allowed to appear in person and testified via Skype to the Dutch court. The verdict will be delivered on Monday, December 19, 2022.

DAVID ICKE COURT HEARING LIVESTREAM

DECEMBER 9, 2022

I'm sorry about look a bit bewildered but I just had this vision this morning of spinning down the rabbit hole, holding the hand of Alice. Because it seems like 'Alice in Wonderland.'

I have spent thirty-three years saying one thing above all else, so you won't see that mentioned by the government lawyers, and that is: "We have to put down the things that divide us and come together and love each other." I wonder how many people in government had ever said that. I say it constantly.

I see the labels of a human life – sexuality, race, culture, income bracket and religion – as just fault lines, just experiences in a short life we call human, when the true I of all of us is the same consciousness having different experiences.

Into that philosophy it is not possible to inject the judgement of someone by the nature of their body or the nature of their history.

And I'm not anti government. I'm not anti democracy. I would just like some.

Because what I'm saying is, that the right of the people to have their say and live their lives in freedom is being eroded.

The walls are closing in all over the world quite demonstrably. I wonder, if 3.000 farmers in the Netherlands think that they live in a free society?

And so, I have spent the last few weeks now in this rabbit hole with Alice, thereby I'm asked, invited, just to come to Dam Square in Amsterdam on one afternoon and speak for twenty/thirty minutes about peace. The need for peace. The need to stop war and conflict. Yes, and violence which abhors me.

And for accepting that invitation, I now find myself banned from 26 European countries and many on top of that in truth.

And when I hear a debate going on in this case today about whether it is urgent or not – whether it is urgent or not – not to be any longer banned from my free movement in Europe.

A Europe that I've been going into now for thirty-three years, speaking with not a problem. And in terms of urgency, I was planning, it was all in motion, to speak in a few weeks, in a few months, actually in the spring in Estonia, in Sweden, in Belgium and other places. But now I'm not allowed to speaking.

And what this is really about is not me being a problem for dutch society. What a nonsense. This is about a government seeking to prevent the people of the Netherlands hearing something the government don't want them to hear.

'No, not that it is a Jewish plot, not that you want to bring an end to democracy.' You want to have it back. Thank you.

And that is, what the problem is. The fact that I have spent thirty-three years, going to 60 countries researching this. Here is just one of my books, look how thick it is. You talk about theory.

And what I have been saying and exposing, and more and more people – yes, you are right government lawyer – are now looking at my stuff.

Why? Because of their experience in the world and their daily lives – and their freedom is disappearing.

That's why the government and the secretary of state wanted to stop me speaking in Dam Square. And another reason is, so many people were going to come, because I was there, that it would have shown the rest of the people of the Netherlands just what the scale of feeling there is, among the dutch public about the way they are being governed in post upon.

And how their country, like my country and all countries around the world, is getting more fascistic by the day.

That's what this is about and the rest of it is just made-up nonsense.

DAVID ICKE TALKS TO SACHA STONE

Excerpts, Interview, November 16, 2022

The ban and how it works.

"The process that led to my, what turned out to be a massive ban, but I can say we are challenging it, was a classic, because the same happened to me in Australia 2019."

It goes like this:

You got to go in there, and you are going to speak and you go to leave. You are not going to cause any trouble for anybody.

But the first thing they do is get a group – in Australia it was a tiny, little organisation called the *Anti-Defamation Commission* and in the Netherlands it was another tiny organisation called *CIDI (Centre Information and Documentation Israel)* – and they start kicking off that this man must not be allowed to come in because he is this, he is that, he is the other, he is going to be spewing hatred, which is the last thing I ever do.

What happens then is the media pick it up and they go with it – my god did they go with it in the Netherlands. And you are completely demonised. By the way, it was all over the television. It was all over the radio, all over the newspapers for two weeks solid and not one single dutch media organisation came to me for my side of the story or a comment. It is just extraordinary.

So that starts. And what happens then is, what I call the anti-fascist fascists and the anti-hate haters. Those groups start responding to the media. So there are going to be anti-fascists groups having a counter demonstration against me because they bought the idea that what they are saying I'm saying, I'm really saying.

It is so easy, if you do not question what you are told, to get you to believe anything. And then *extinction rebellion* kicked in because what I'm saying about the manipulation of *human caused climate change* as a reason for global society transformation. So, they would be coming in.

And what happens then to complete the sequence is, of course, the government ministers and the virtue signalers in the government all kicking off as well.

And then the government comes in and says: "*We have spoken to the police, and the police are very worried. They say your presence in the Square could cause violence.*" Not that I would do it, but my presence would generate it, because of all the counter-protests.

Yeah! The counter-protest that you have generated and your media has generated. So you create the problem and then you use the problem to stop a guy coming to talk about peace, from speaking in your country. And the same sequence happened in Australia.

74. Esto es lo peor! *That is still worse!*

The Disasters of War_Plate 74_Esto es lo peor! (This is the worst!)

And more than that, because it turns out that this *Schengen Information System (SIS)* which leads to, one country banning someone of certain grounds, means they all do.

Well, it turns out that the United States peers to take the SIS Information for whom they are allowing in there. Other countries, not in Europe, take the same thing.

Other countries in Europe, in the European Union but not in the Schengen group, they take the SIS information as a basis of whether they let someone in the country. And given that I already banned from Australia 2019, then it is a situation there I'm banned from much of the world, certainly of vast chunks of the Western world.

Where I'm going with this, in terms of one of the elements that it highlights, is where the real power is. I'm one bloke, living on the Isle of Wight. And they are so terrified of me and what I'm saying that they ban you from most of Europe and other great parts of the world as well.

So, what happened to this all-powerful network, which seeks to impose its will on the world. That owns the media, that owns, indeed created, the platforms of Silicon Valley. That owns the banking system. That owns governments, massive global cooperations. That force is so terrified of one man that is has to go to this ludicrous length try to shut me up. Not possible, by the way.

And it is a real reminder where the real power is. This network has no power. The only power it has is that which we give to it. And we give our power to it in three way, really. ...

Sacha: And just to set the records straight here – what is your message to the Jewish fraternity in the light of you being accused of being an anti-Semite?

David: Well, it is this. We are all one consciousness having different experiences. And as I have said for thirty years and more, the labels of a human life are not who you are. They are what we are experiencing briefly in what we call the human world. And therefore, whether you call yourself Jewish or Black or Islam or Christian or this sexuality, or that sexuality – that is not who you are. That is what you are experiencing.

What you are is the great forever, the expression of an infinite state of consciousness of which we are all expressions. And the irony is that I am saying we are all one, at the same time as being presented and demonised as for seeing the labels of a human life in terms of some good, some bad.

What I've said over the years is this: Show me any group of people, show me any nation, any culture, any sexuality, any race, any group of human beings anywhere – and I'll show you nice people, I'll show you o.k. people and I'll show you psychopaths. And the vehicle, whatever its colour, creed or culture or religious belief is irrelevant to that. What makes you a nice person, o.k. person or a psychopath is your state of consciousness. Your state of perception of yourself and the world. ...

DAVID ICKE SPEECH FOR AMSTERDAM PEACE RALLY

THAT HE WAS BANNED FROM 26 COUNTRIES
FOR TRYING TO MAKE

David Icke gave this powerful speech from a beach near his home looking out over the English Channel - now the limit of his freedom of movement for the crime of calling for peace and freedom.

"We must not just talk about freedom. We must live it. And live it by ceasing to cooperate with what which is by the hour now destroying freedom."

Hello – haha

Was it something I said? I do hope so. My God. My bloody god. The world is insane. And anyone here who has had their minds downloaded in the last two weeks by the state's version of me – well, there is really no hope for you until you choose, and it is your choice, to take your mind back and own it yourself.

'Tell me what to think, Mr. State Authority.'

It is pathetic. And it is the reason this world is moving so fast into global fascism. It is you, who give your minds to the fascists, what allow this to happen.

'We are anti-fascists.'

Where were you then Rutte's fascism was being imposed in the Covid-lockdown; imposed by the brutal riot police in their fancy dress. Where were you?

'Oh yes, Mr. Rutte. No, Mr. Rutte. I won't go out, Mr. Rutte. Oh, this nasty people questioning you!'

My God, it is like living in a kindergarten.

So, anyone here of that mentality; I'm not talking to you because there is no fricking point.

So, I'll address the rest of what I got to say to those here with a mind of their own, what they are prepared to use. Those who can see what the mindless moronic people who have brought this ludicrous situation about, of me being banned by twenty-six countries just because I was asked to speak at a peace rally for half an hour.

My God. Anti-fascists, anti-haters, with hate where your heart should be, claiming you are against hate. So enough of wasting my breath, my vocal cords with you.

Los caprichos_No. 70_Devota profesión (Devout profession)

And I shall address instead those who do have a mind in working order. Those who stood up to the Rutte fascism in the Covid-lockdown and paid the price from the brutal people in fancy dresses. Those that can see; like the farmers of the Netherlands, who can see in stark reality with the impositions and destructions of their lives and livelihoods, what living under Rutte fascism feels like.

We must not just talk about freedom. We must live it. And live it by ceasing to cooperate with what which is by the hour now destroying freedom.

And I'm going to talk about how current events have reached where they are and why they are happening.

Put into context why the farmers of the Netherlands are being so ruthlessly targeted by this cult operative Rutte and his mob.

For the last thirty-two years I have been working full-time, I've travelled to sixty countries, unravelling this reality and asking the questing and answering the questing:

Who and what is running our world and to what end?

And I realised that you can go back to ancient Babylon and ancient Sumer and what we now call Iraq. And you can pick up – you can go back further, but you can certainly pick up there – the emergence of what I call today the global cult. It wasn't global then as it is now.

And this cult moved out of Babylon and into becoming the Roman Empire. And through the expansion of Rome, it went into northern Europe and eventually sat down, as it did in Rome with the Vatican. It set down its roots and its center of operation in Britain, particularly London, but also other European countries too. And this is why the British Empire became so vast. It was said that the sun never set on the British Empire. There was the Dutch Empire, the Spanish Empire, the French Empire, the Belgian Empire. And these were all actually Cult Empires.

And the goal all along has been to expand the power of this cult, by centralising power and decision making to the point where it becomes the global overlord of every man, woman and child in every community on planet earth.

Los caprichos_No. 79_Nadie nos ha visto (No one has seen us)

So we had the mass colonisation of the world out of Europe and Britain. And then we had this sleight of hand, this fakery, then it appeared that the European powers withdrew and set their colonies free. But that is not what happened.

Instead the cult left out in those countries the secret society network and the bloodline families, through which it operates, controls and manipulates. And it is going on controlling these countries ever since.

And then we had this phenomenon called globalisation. And what is that? The centralisation of power globally, in every area of our lives.

And this is going on and on to the point where it is now – this global cult, a literally global operation.

And it's a simple equation. The more you centralise power, the more power you have to centralise even quicker. And thus the speed of centralisation has got faster and faster and faster. So today, this cult has its representatives in governments in countries across Europe and in countries across the world.

And one of the expressions of this cult is something called the *World Economic Forum* of Klaus Schwab, the mate of Gates and all the other members of this mafia mob.

And so Mark Rutte, Prime Minister of the Netherlands, is an asset of the *World Economic Forum*. He runs your country for the agenda of Klaus Schwab, who runs the *World Economic Forum* for the agenda of the global cult. And your royal family, the *House of Orange*, is up to its bloody neck in this.

A Head of State decided by bloodline, in 2022. The same in my country. It is insane.

Los caprichos_No. 55_Hasta la muerte (Until death)

'Oh, democracy ...'

Oh, shut up. Democracy. Not when you have a Head of State chosen by who has sex with who in what order.

So Rutte is not running the Netherlands for the people of that country. He is running it for the *World Economic Forum*. And Schwab set up an operation called the *Young Global Leaders school*, where he picks up – those that control him pick up – potential leaders, i.e. thoroughly corruptible people to be the leaders of countries to impose this global *Great Reset*, Schwab talks about. The transformation of human society into a global fascist dictatorship.

Now, who has been through that school? Justin Trudeau, the fascist leader of the now fascist Canada. Macron in France, ditto. Ardern in New Zealand. Newsom, the Governor of California, who has turned California fascist, since the Covid era.

These people are in place to impose a globally dictated agenda on the entire world.

So what is that agenda?

It is to create a structure of society in which the tiny few at the top of the pyramid, people call it the 1%, in fact it is a lot less than 1%, have total control over the population of the world at the bottom of the pyramid.

And in between that elite and the population is designed to be, and my god the fancy dress people showed us what was planned in the Netherlands. There is planned to be a police-military state, a merging of the two, of total brutality and merciless imposition.

And the population is designed to be controlled by the few through dependency – dependency on the few, for survival.

How do you bring that about?

What you have to do is to destroy the access to an independent income of the population. So, that is what lockdown was really about, was nothing to do with health – scam that!

It was to do with dismantling small business; holding the economy globally under the waterline.

So, now they are pushing that on through their manufactured war in Ukraine, which is actually a proxy for a war between the West and Russia, eventually China too.

They are using that to push up the energy prizes as they are using the fake utterly scientific nonsense of *Human-Caused Climate Change* to also transform the cost of energy. Transform the cost of energy, and you transform the cost of everything because everything needs energy.

And thus more businesses now are going out of being; after the lockdown now the energy prices.

And they are forcing people more and more into dependency by the state.

What else do you need to control the people? Food!

... to make them dependent. Food.

And this is why during the lockdown period of the Covid fascism, the supply chain of food and the production of food chain was dismantled.

Why does anyone think that Bill Gates, Mr. Covid fake jab, that has killed so many and destroyed their health and even more – why does anyone think that Gates is now the biggest owner of farm land in America?

And so, why would the *World Economic Forum* frontman Marc Rutte target farmers and farming in the second biggest exporter of food in the world, the Netherlands.

It has nothing to do with climate change – they know, that is a scam.

It has to do with using that as the excuse to dismantle farming and food production. And why would they not, if that is their goal as it is, target the second biggest exporter of food in the world?

So, people of the Netherlands, farmers of the Netherlands – this is not just about targeting you. This is about a global agenda to make the entire population dependent for the basics of life on the tiny few.

Thus, the many become dependent under the control of the few. And that is what it is really about.

Rutte is not your friend. He is your enemy par excellence.

Los caprichos_No. 53_¡Que pico de oro! (What a golden beak!)

So, where do we go from here?

Well, the moronic people who long ago handed their minds to the state and authority – well, where are they going? They are going down the road to exactly what I'm talking about. And they will do nothing about it. Too busy stopping those that try to warn them.

So that leaves the rest of us.

And there are three types of people. Two of the groups are responsible for every tyranny in history. And the third group is responsible for ending every tyranny in history.

Group number one, those who mindlessly accept anything authority tells them, without question.

'Oh, there is a deadly virus.' *'Yeah, there is a deadly virus.'* *'Oh, O yeah. We got to have the fake vaccine, so it will protect us from the fake virus.'*

And they will just do what ever they told and think whatever they told to think.

Then, there is group number two. Those that don't want to do what the authority tells them, but they are terrified of not doing so because they fear the consequences.

Those two groups together have been responsible for every tyranny in history.

Fascism is not imposed by fascists. There is never enough of them. Fascism is imposed by the population acquiescing to fascism, see Nazi-Germany.

So, if anyone says: What can we do?

You can get off your bloody ass, stiffen your backbone and stop being a bloody wimp. There is a start.

Look your children and grandchildren in the eye and tell them what you were doing when fascism was introduced.

'Oh, I was keeping my mouth shut.'

Or even worse. *'I was trying to get that David Icke bloke banned, who was warning us about it.'*

And then there is group number three, that has ended every tyranny in history, the true renegades of this human family. Those that see they being lied to. Who see where this is going and refuse to cooperate.

The people who understand the most powerful word in the English language: NO, NO, NO! English language or any other language: NO, NO, NO! Not doing it! Not cooperating!

If Rutte comes out of his government building and says, *'This is what we have decided. Oh, this is what I have been told to decide in this case. This is what is going to happen.'*

If enough dutch people say: *'Sorry mate, not doing it'*, he has no power.

These people have no power. Except the power the population gives to them in the form of acquiescence.

The Disasters of War_Plate 76_El buitre carnívoro (The flesh-eating vulture)

So, what can we do?

'There is nothing we can do.'

There is everything we can do. Stop giving your power to authority and then you'll see authority never had power in the first place, because it was always yours.

And we have reached the point; I have trust that people with still got a brain cell on active duty will see, from what's happened to me in this situation. Where speaking at a peace rally your opinion leads to twenty-six countries in concert banning you.

But no, no. A few people can't control the world. It is not possible, is it?

This is another step, that has happened on the road which is getting faster in terms of its direction and speed to total global fascistic control.

When, when do we draw a line in the sand or the stones and say here and no further and start to roll it back?

Do we do it now? When you are banned from 26 countries for your opinion, or actually lies about your opinion, do we do it now?

What about then the Covid fascism was introduced? Do we do it then? So, when will we do it?

A few weeks from now? A few months from now? A few years from now? Forget the years; we are over then.

People now have to realise, when they talk about spirituality, that true spirituality comes with a spine. True spirituality is never spineless.

An open heart is the place where we go beyond fear. Where you do what you know to be right, simply because you know it is right.

You don't go through a checklist of consequences.

'Oh, I like to do what I know is right ... but ... what are the consequences for me?'

That (the heart) never asks about consequences because it would never consider not doing what it knows to be right.

And we are at that point now, where, if there is not a mass refusal to cooperate with this unfolding fascism, then we are moving very quickly into a state of global fascism that people would almost be unable to comprehend in terms of its depth and its evil.

And that, Ladies and Gentlemen of the Netherlands and the world, is the nightmare that we are leaving our children and grandchildren to suffer and endure.

72. Las resultas. *The consequences*

The Disasters of War_Plate 72 Las rcsultas (The consequences)

Freedom is not just a word. It is not just a platitude. It is something that has to be lived.

Because as less we live freedom how can we possibly be free.

And we are at the point now where we are allowing 8 Billion people to be controlled and dictated to and have their lives taken over – by, at the core of the core of this cult, people you would get into a single room.

That is how far the self-respect of humanity has fallen.

And that is the point – Self-respect.

You do not have self-respect when you mindlessly believe whatever you told by authority. You do not have self-respect when you do it although you don't want to do it because you fear not doing it.

You have self-respect when you stand up for your rights and your fellow humans rights. And don't let consequences cower you into submission.

The Netherlands is a fascist country now. My country is a fascist country. America, Canada. New Zealand. All of them. Australia. Fascist countries. France, Belgium. All of them. And it is only possible because we allow it.

I've spent a lot of time once with a great friend of mine in South Africa, called Credo Mutwa. A wonderful, wonderful man who saw what was happening in the world and knew the history of it. And he said to me once: "Mr. David, you are a lion."

The world needs lions. Yes, it does – like never before.

It is time to be a lion and not a sheep. It is time for humanity to ROAAAAR:

"NO, NO, NO!!!"

No more fascist dictatorship. No more submission to Rutte and those who control him.

It's now or it is never!

LETTER

**MINISTRY OF JUSTICE AND
SECURITY (IMD)**

Dear Mr Icke,

With this letter I inform you that you have been reported immediately in the Schengen Information System (SIS II) for a period of two years and you are not allowed to enter the Schengen area.

The reason for this alert concerns the following.

On October 31, 2022, the Amsterdam Police sent an information report dated that day from the Regional Information Organization (DRIO) to the IND.

The following conclusions and Findings emerge from this report, among other things.

Given the reactions from society, it is not inconceivable that the arrival of David Icke at the 'Samen voor Nederland' demonstration will lead to a disturbance of public order. Based on the media attention and the reactions from both sides, his arrival is the center of attention for both supporters and opponents. ...

It turns out that you have been internationally known for years as a propagator of conspiracy theories. For example, you state that the world is ruled by so-called reptiles, which would be a group of powerful aliens pretending to be humans. According to critics, the reptiles are a metaphor for a (partly Jewish) elite that forms an all-powerful secret world government and is active in all ranks of society. ...

DAVID ICKE TALKS TO JORN LUKA

Excerpts, Interview, November 18, 2022

The limitation of the five senses.

"They don't want people connecting with the higher frequencies. And joy, love, happiness, expansion of perception - they all start to connect you with expansive levels of consciousness. And at that level of awareness, you stop doing that and you start doing that - oh my god, I can see it now."

And what they have then done, because they can't find any tangible evidence that I'm anti Jewish – because I'm not.

If I thought it was a Jewish plot, I would bloody say so. And consequences be damned. I would say so.

But it is not. It is a Sabbatian plot as part of a bigger plot by this global cult.

And so another thing what they do – because they cannot pin down anything I said is antisemitic (from their perception antisemitic), that is a tangible evidence – they say: *“He talks about reptiles.”*

Yeah.

“Well, that is a metaphor for Jews. That is what he is saying it for.”

Right. O.k. Let us just get this right.

When I say the world is ultimately controlled by a non-human force that takes a reptilian form (not only a reptilian form). And ultimately it is a form of consciousness, anyway.

But when I say that, amazing as it may seem, I mean reptilians. I don't mean Jewish, (*actually is Jewish, but I'm saying reptilian.*)

No, no, no. I mean reptilian!

Because of this limitation on perception that the education system and the media are pounded out all the time, people think: *"The world is run by reptilians? Well, reptiles ... that is impossible. Isn't it?"*

Well, it is not. You just think it is. And folly enough, what you think is the situation has no bearing on the truth of the situation. It is just your opinion and your perception. It is not whether it is true or not. It is your perception.

So, if anyone reads my books, watches my videos, they will see very clearly over a long, long period of time, going back to the early 1990, that I'm talking about reptilians. Literally.

“Why can’t we see them then?”

Right. Let’s just widen this myopia view and let’s see what is really going on.

You say to most people: “When you look into this room, can you see everything in the space you are looking at?” And they go: “*Yeah, of course, I can.*” No, you can’t.

And this is why keeping the nature of reality from the population is fundamental to controlling the population.

Because you stop people thinking or understanding why things are possible, like that paranormal. Paranormal, why do they call it paranormal? Because it is different from the normal. Right?

“Yeah.”

But the normal is merely a perception. The paranormal is just as normal as what you think is normal. I come to it in a second.

But they have to call it the paranormal, as if it is like out there. Because it is in the paranormal understanding of reality, that the penny is dropped to what is actually going on.

Los caprichos_No. 51_Se repulen (They spruce themselves up)

When you look through your eyes, you are not seeing everything that exists in the space you are looking at. You are seeing a tiny band of frequency which is all the sight-senses can decode.

It is the same principal as a television or radio station on the analog system that shares the same space as all the other channels. So, in the analog system in this room, are all the television channels broadcasting on that system and all the radio stations. And they all sharing the same space and unless they are very close on the dial, they are not interfering with each other. They are completely oblivious of the existence of all the others.

Well, if you look at mainstream science and what it says about what exists in this so-called universe in terms of energy and all it forms – they say that the electromagnetic spectrum, which is basically this reality we perceive, is 0.005 % of what exists in the universe. The universe. Never mind beyond it.

And visible light, which is the only band of frequency that we can see and decode into a visual reality, is a fraction, a tiny fraction, of the 0.005 %.

So basically, rather than seeing everything that exists in this room or any other room or any other part of this reality, we are basically blind to the infinity of what exists because we can only see a tiny band of frequency.

And so anything that operates outside that band of frequency, we don't see!

And this reptilian force, and I can say it is not only reptilian but this seems to be a dominant form, operates in the bands of frequency close to this one but just outside. In the kind of spiritual, esoteric arena, it is a dimension that is known as the Astral.

And at the lower levels of that Astral dimension which is operating in a different frequency band than this one – this is why we are not visually aware of it or we do experiencing it in dreams and stuff like that, and in the paranormal – that is where they exist.

When, for instance, someone is telling you that they have seen some space craft appear out of nowhere and then disappear into nowhere, or some entity has appeared and then disappeared into nowhere – to the, I call them five-sense prisoners, they are saying: *“That’s impossible.”*

Perfectly explainable!

What happens is, these crafts, these entities, they enter visible light and at the point they enter they appear – to the observer who is only decoding visible light – to appear out of nowhere. And when they leave visible light they appear to disappear into nowhere. They are don’t disappeared. They are don’t demanifested. They just left the frequency band that we can see.

And so one of the things that I've exposed over the years in the books in great detail is how these cultists, some of the most famous people in the world, are involved in pedophilia and satanism. And they do their rituals in secret now, they used to do it openly before, in the ancient world.

They do their rituals and their sacrifices of what became known as young virgins, i.e. children, to the gods.

So, how do you make a human sacrifice to the gods?

Because in the dimensions or dimension in what these 'gods', these reptilians and other non-human gods they perceived (prats actually) exist, that resonates, that vibrates. That frequency band is compatible with human emotion.

So, when you feel emotion – you can feel it, yes, but you can't see it. You see the manifestation of it in the human reaction, but you can't see the emotion. But it can be measured. Every time we think, every time we feel, the nature of that thought, the nature of that emotion is a different frequency.

And fear is the foundation frequency that this non-human force feeds off.

You know in the matrix, then the Morpheus character held up a battery and said: "The machines have turned humans in one of these – a battery." That is exactly symbolically the truth. They feed off our low vibrational human emotion.

Because they are operating in a low frequency themselves, the lower level of this Astral frequency or lower fourth dimension, they can only absorb energy, emotion from people, that operates within that dimension of that frequency band that their are connected to.

Los caprichos_No. 52_¿Lo que puede un sastre! (What a tailor can do!)

So, love, joy, happiness, they are high, fast frequencies. That's why people say when we feel joy: "Oh, I feel so light today." Because the frequencies that they are pounding through their electromagnetic field are making it vibrate quicker and thus they feel light.

And when people get into states of fear and anxiety and worry and resentment and all these low vibrational emotions – which are the only emotions they can feed off. This is why they want humanity in that low vibrational state. The more wars, the more worry, the more economic challenges the better.

When you are in those low vibrational states you are giving off the frequencies they feed off. And what do people say when they are in those low vibrational states: "I feel so heavy today." Because those low vibrational states give off much lower, slower frequencies and thus the electromagnetic field of the body starts to vibrate slower and slower, and people feel dense and feel heavy.

And they need to keep people in that slow, slow emotional state so they can (a) feed off them and also keep them from connecting to the expanded consciousness that comes from the higher frequencies.

They don't want people connecting with the higher frequencies. And joy, love, happiness, expansion of perception – they all start to connect you with expansive levels of consciousness. And at that level of awareness, you stop doing that and you start doing that – oh, my god I can see it now.

They don't want that. They want you here (down).

These reptilians, they can enter our reality but not for long because there is not a frequency capability. So, what they do is they enter our reality via a human body or via proxies that operate within our reality and manipulate reality within our reality to the agenda of this non-human force.

And so this is what the global cult is. The global cult is the network through which this non-human force manipulates within the frequency band of human society. And these cultist are doing these rituals interacting with these 'gods' because they know – if you are deep enough in these cults, this cult, one cult in the end – they know at that deep level of the cult that these reptilian gods are running the show.

And so I found it interesting that, in this diatribe, rambling, bloody nonsense from this unnamed guy from the justice ministry, they are now talking about the fact that I'm talking about reptilian entities and reptilians manipulating human society as a reason to ban me from speaking.

Now, let's think about it, Ladies and Gentlemen. If what I'm saying is so nonsensical – what they say is: *"It's mad, oh bless him, he is talking about reptilians, oh, god ..."* – you won't see me as a threat, would you?

But they do. They do. Why? Because what's starting to happen since this big C (Covid) era is that more and more people have looked at what I've said about was coming in terms of the world of the seen and it is happened.

And they go: "What else is he saying? Maybe this reptilian thing is not quite so crazy because if he is right about this, how can he be so wrong about the reptilians?"

And another thing that is happening, what is getting people to start opening to these possibilities is that when you look at what is happening in the world – it is a fundamentally anti-human agenda. They are messing with every element of human survival and human function.

So, they are seeking to control the food distribution. They are wanting to control access to water through this UN operation agenda 2030, which is the *Great Reset* under another name. People like Gates are messing with the atmosphere, as I've said since the 1990, and now they are doing it. They are creating a technologically sub-reality by pounding the earth and the earth natural electromagnetic field with 5G and 6G, 7G to come.

They are changing the nature of the very electromagnetic field that we are interacting with.

And if you look at the fake jabs. They are infusing synthetic, genetic material (mRNA) and nano technology which is self-replicating. So once it is in there, it starts to build. You can see this in massively blown up electron microscope videos of this phenomenon. They are building technological systems within the body. So the very foundation of being human, the human body, is being changed by this force.

And you put it all together, one after the other, and it is a fundamentally anti-human agenda. **So, is it so amazing that a non-human force might be behind an anti-human agenda?**

DAVID ICKE TALKS TO SACHA STONE

Excerpts, Interview, November 16, 2022

The reincarnation trap, the simulation, and who is behind it.

"One of the key things, if not the key thing that has allowed humans to be enslaved on mass, is to keep from us the nature of reality."

I think as the frequencies rises a lot of things are going to be become phenomena that can be seen, which were not seen before.

And what I do in *The Trap*, my latest book, is, I go into another level of this, which is basically what happens after we leave the body.

I looked at this, and I thought – Ok, I can understand why consciousness might get caught in here once. And you look around the world, the horrific lives that people have, called human. And I thought – Why would anyone come back?

And I looked at this reincarnation, and I thought – Well, I've seen enough evidence over the years to think, yes, there is such a thing. But then the question is, why would anyone come back here? And so I started looking deeper. In *The Trap* I'm going into this in detail; the things that happened to me then I was writing the book and how I came to certain conclusions.

But for me, as I've been saying since the start and turn of the millennium, we live in a simulation. It is a technologically generated simulation, and I explain in the books over the years how it works. The thing is, this is only one level of it. This, what we call the human world, that so-called physical, is only one level of it.

There are other levels of this. And it seems to me that, if consciousness does not leave the body in a high enough state of awareness, of perception thus frequency, then it gets caught in the trap, the reincarnation trap.

And I found it interesting that, if you look at the eastern religions, they talk about reincarnation and how you have to keep coming in to learn lessons to reach a state of enlightenment to not have to be on the circle of reincarnation anymore.

I looked at that and thought – Hold on a second. If you project the current mainstream (it is obviously wrong, but that's an example), the current projection of the size of the universe, in mainstream science, then planet earth is the equivalent of a billionth of a pinhead. So I being asked to believe that we have to keep reincarnating onto this billionth of a pinhead to learn lessons.

When I look at that, I do see how it symbolises what I think is actually the situation. That, if you take this planet to actually be a simulation – not saying this planet doesn't exist elsewhere on other vibrational levels, I think it does.

But this is, if you like, a digital version of it which is being fed to us. And funny enough, I mentioned earlier in the sense of this 5G technologically generated field being overlayed onto the field we are interacting with normally. *(see full interview)*

Well, this simulation, another level of this, is basically the same principal. They overlayed what I called prime reality with this simulated field of information – the matrix if you like and tuned us to it.

So, we are experiencing and decoding and interacting with a fake field, believing it is real. When the real prime field exists beyond it.

And it seems to me that people get caught in this reincarnation circle because they can't vibrationally get out of the multileveled simulation. And you got this old ancient esoteric concept of the 'ring pass not.' And that is, that there is, almost like a bubble, that you can't get through unless you are a certain vibrational frequency thus perception, thus awareness.

And the idea of this simulation and that, which has created it and is driving it, is to stop humanity getting to a state of consciousness where they can get through the 'ring pass not.'

And this is, I would suggest, the real background to the eastern concept of reincarnation into this world – to reach a stage of enlightenment so you don't have to keep reincarnated. That state of enlightenment is that state of awareness that takes you through the 'ring pass not.' So you can leave the multilevel simulation.

Los caprichos_No. 59_¡Y aún no se van! (And still they don't go!)

So, the next question is: Who is driving this simulation? Who created this simulation?

I started talking about this just after the turn of the millennium. And I said and also wrote it in my books: “This is a simulation and the limits of the simulation are the speed of light. The speed of light is not the fastest speed. It is the limit of this level of the simulation.”

And then in spring 2021, *Scientific American* produced this article by an academic, that said that he concluded that we live in a simulation and so many others in mainstream science are going the same way now.

And that the limit of the simulation, he said, is the speed of light. And he related, I think rightly, the speed of light to be the processing speed of the simulation. I’ve been saying for years that actually what we call the laws of physics in this reality are the rules of the simulation.

When you write a simulated virtual reality game, you are basically writing the laws of physics of the game by setting out the rules and the limits and the parameters. And this guy was talking about that as well. And then he said: “No matter how you write the rules, you are going to be restricted by the processing speed that you are dealing with. And he said, I think the speed of light is the processing speed.”

And other people like Rich Terrell at NASA came out some years ago and said that he has concluded that we live in a simulation and that it is a holographic simulation, which I’ve been taking about.

And therefore, as he pointed out, if it is a simulation, it had to be created by a force. It is not a natural phenomenon.

So, who is behind it?

And then you look at all these stories of non-human, all around the world, in the ancient world, etc., right up to present day, of non-human entities manipulating human society.

And it is these non-human entities that are behind the simulation and behind the manipulation of human society.

And then people talk about the Astral realms, what I might call the fourth dimension. And then they are talking about the way that these bloodlines and these elite groups do their satanic rituals and sacrifices to the gods. And the ancients sacrificing young virgins, symbolic of children, to the gods.

Who are these gods?

And the way the synchronicity of my life has gone and the evidence that has been presented to me over the years, it seems to me that what is basically the structure: In the lower levels of this astral realm, fourth dimension or whatever you call it, these gods reside. And they are operating on frequencies outside of the tiny band of frequency called visible light, which we can see.

I mean, if people realise how little of the space they are looking at they can actually see because of the limitations of visible light and our ability to see, they would then start to grasp how entities can exist which they can't see. Because they are outside of the visual limits of human sight. Which is virtually everything that exists.

These entities, they are operating on frequency levels outside human sight, are driving this direction of human society. And they set up this global cult as I call it, which is multileveled and has a mission control. And then many other levels to it, going out into mainstream society to impose the will of these entities upon human society within the realm of visible light, the human world.

And these entities have created a particular network of bloodlines. You can go back to *'The sons of gods interbreed with the daughters of man'* in the bible and all these other different expressions in the ancient cultures of how some non-human gods interbreed with humans. And they created a hybrid bloodline which is part human, so that is what we see, and part non-human, part an expression of the gods, which takes so often, it seems, a reptilian form.

So you got these hybrid bloodlines.

One of the key things, if not the key thing that has allowed humans to be enslaved on mass, is to keep from us the nature of reality.

You want the target population to believe in a solid world of enormous limitation. And anything beyond that, anything beyond of that the five senses can conceive, you are going to call it paranormal. You are going to trash it. You are going to ridicule anyone who talks about it. You are going to call him dangerous and all that. Because you don't want people to know how reality works. Because if they did, they would start sassing things – that they wouldn't otherwise do.

Because of that, when people like me come out and say: "People have told me all over the world their stories of seeing a person that appeared to be human, shape-shifted into a non-human, often reptilian, but not always and then back again."

The people then look at you, like my mother used to say, they look at you gone out. Because what they are saying, and I do understand it, is you can not shift from a physical solid body to another physical solid body.

No, you can't. But that is not what is happening.

That is the point. And if you keep the nature of reality from people, they will dismiss what is happening because they can't understand why it is happening.

And this applies not only to the mass of the human population, it applies to the academics and scientists. They can't get it either.

Los caprichos_No. 37_¿Si sabra más el discípulo?
(Might not the pupil know more?)

So, how do we create this world, this matrix?

In the same way that this computer in front of me takes the radiation field, called WiFi, which we can't see and turns it into a completely different reality on the screen in front of me.

What this technological world today is doing, is mimicking, technologically, the reality that we are experiencing. Because what it is – It is another level of this holographic simulation, thus each level of a hologram is an expression of the hologram. Every part of the hologram is a smaller version of the whole. So that is why you are seeing this technological world unfold, which is mimicking – it is another level of the simulation itself.

So how do we decode it? What is the matrix?

The matrix is information. The matrix is like a wifi field and we are interacting with it. And if you look how we create reality – this is mainstream science.

The foundation of this matrix, this simulation, is waveform information. And what happens, and how the five senses work, is the five senses pick up the waveform information. The ears are a classic with sound waves and all the other senses work the same way. They are picking up frequency information. Everything is a frequency in this reality, and they turn the frequency waveform into electrical information which is then communicated to the brain, and different parts of the brain, specialised in decoding information from each of the senses.

And what the brain does then, is form all that information into a digital holographic reality. And that digital holographic reality appears, I'm sitting here now, it certainly appears to be outside of us.

So, I'm looking into the world. No, no, the world I'm looking into exists here (in the mind). Just as the world I'm looking into on the computer exists only in the computer. And so, what we are doing is, we taking this matrix and information and we are decoding it into a reality by the five senses – which is a digital holographic reality that only exists here (in the mind).

The observer creates reality!

When I'm looking at someone, for instance, in a human body, I'm looking at a field of information that we call human. And therefore, I'm going to decode that field through the process I've talked about into a human body. Oh, that's a human.

But these hybrid bloodlines, the reptilian hybrid bloodlines of the cult and the royal families – that's where royalty comes from. That's why they supposed to have special bloodlines. That's what they are.

Well, there are times when the non-human field of the hybrid becomes the dominant one. And at that point the observer is first of all seeing a human field. Oh, that's a human. And then suddenly there is a shift. And to the observer, who is perceiving and decoding this world as physical, someone has just shifted from a solid human body into a solid reptilian body.

And that's why, when people describe, this is what I saw, everyone else says: *"You are mad, man. That is impossible."* No, it is not.

Why? Because the shift is not physical. A physical shift is impossible. It is not physical. It is in the decoding mechanisms of the observer there you first perceive the human field, so you decode human. And then it shifts to the non-human field, now you decode it non-human. And to the observer someone is move from a solid state of human to a solid state of non-human. That is not what happens.

It is really the great foundation of human control, that so many people miss, to keep the nature of reality from us. That is how they have held us in servitude so long.

FRANCISCO DE GOYA Y LUCIENTES

1746 - 1828

Unlike many of the leading figures of the art world, Francisco de Goya cannot be really placed in any specific artistic movement or historical period. On the one hand he is close to the late Baroque and to Neoclassicism, on the other his opus shows themes typical of the Age of Enlightenment, anticipations of romantic philosophy and reflections on modernity.

Los caprichos

Los caprichos are a set of 80 prints in aquatint and etching created by Goya in 1797 and 1798, published as an album in 1799. The prints were an artistic experiment: a medium for Goya's condemnation of the universal follies and foolishness in the Spanish society in which he lived. The criticisms are far-ranging and acidic; he speaks against the predominance of superstition, the ignorance and inabilities of the various members of the ruling class, pedagogical short-comings, marital mistakes and the decline of rationality. Some of the prints have anticlerical themes. Goya described the series as depicting "the innumerable foibles and follies to be found in any civilized society, and from the common prejudices and deceitful practices which custom, ignorance or self-interest have made usual."

The Disasters of War

Haunting, macabre, and poignant, the series of 82 etchings by Goya known as 'The Disasters of War' is a powerful reminder of the inhumane consequences of warfare. Instead of heroic depictions of battles, Goya sought to convey the tragic results of violent conflict through his harsh, realistic etchings. Despite its age, 'The Disasters of War' remains one of the boldest anti-war statements ever made, reminding all of us that war can bring out the worst in humanity.

Goya began working on the series in 1810 and eventually completed it in 1820. 'The Disasters of War' wouldn't be published until 1863, 35 years after Goya's death. The series was finally printed by the Royal Academy of Fine Arts of San Fernando, where Goya had served as director.
